William J. Lucking has been elected passion has enjoyed in many years, and probably the best post-war season herz.

Mrs. Julia Neume, secretary-mana-ger of the Chamber of Commerce, stated that the weskend was a busy one for everybody in Quirginia Beach and that all reports to her office were that business was "terrific".

The amusement parks and fishing piers also reported heavy business over the weekend. The fisherman found good luck early in the weekend but a shift in the wind curtailed fishing activity on Monday.

Restaurants at the Beach also reported excellent business over the weekend, James G. Kontopanos, of the Normandie Restaurant, said it was one of the best Lahor Day.

The beachfront, itself, was crowded with bashers escaping the heat. In places the "strip" resembled scene of Comy; Island.

Thotels and motoles reported full houses over the weekend. As one operator expressed it, "we have full house, no space for another guest. Vou can't do better than that." And, that was pretty much the story of Virginia Beach over Labor Day.

The Annexation Case

However, there have been more expres-sions among residents of the county who seem to feel that the county fared pretty well in the face of a strong effort on the part of Norfolk to "grab" some 33 square

There has been mixed expressions since the three-judge court announcd its decision in the annexation suit of Norfolk City against Princess Anne County last week.

Office holders at Princess Anne summed it up in a statement that they did not want to see one foot of Princess Anne County annexed by the City of Norfolk or anyone else. This feeling is understandable and is sincere.

Norfolk will accept the territory the court has ruled it may take in. If the City decided to decline the territory Norfolk would have to pay all court expenses incurred by Prin-cess Anne County in defending itself. For this reason we believe that ultimately the City of Norfok will "reluctantly" accept the area designated by the court.

The Weather and Labor Day

The Labor Day Weekend has come and gone and with it came ideal weather and tourists flocked to Virginia Beach in large numbers. Many felt that it was probably the best crowd of any such weekend for the Beach.

Resort folks here have much to be thankful for this year. On the whole the weather has been good for the Beach. There has been lots of sunshine and plenty of hot weather.

Everything has worked good this year. The beach, itself, has never been more beautiful and the work of the Beach Ero-sion Commission in replenishing the sand

sion Commission in replenishing the sand to the beach has been magnificent.

Virginia Beach has much to be thankful for this season. The weather has been good and that old bugaboo—hurricane notices—have been scarce. And, besides the season appears to be continuing into the fall months with the good weather also predicted.

Do You Remember? By The Old Timer

\$5,000,000 BEING PUT INTO BUILDING HERE

A survey made here this week shows that the buildings and improvements hade here during the past fav years and those now made construction will reach a lotal of \$5,000,000 and that the buildings can be suited to \$5,000,000 and that the buildings page and the suited for the next few modifies will total another \$6,000,000 this amount does not include the price paid for property which if lotaled would exceed this figure many times. The old timer remembers that during the past year 75 new readings that hees the letter in the city or outside. Also the new road improvement, Fire Fighting soulpment, if 7000 counted the house stong up in Virginia Beach in a year would probably be around 75 a month inseed of 75 a year. And as we know the improvement at Virginia Beach now are making it one of the finest resore cities on the east coast.

There is no question but that both parties put forth their strongest tickets. On the Democratic side, Adiai-Stevenson and Estes Kefauver will make a strong combination of vote getters. Stevenson, this column believes, has gained stature during the four years since the 1983 convention and he displayed this stature at the Chicago convention when he set a national precedent in leaving the vice-presidency wide open and up to the choice of the delegate. Greek Musicians At Martha Washington

At Martha Washington Among Mr. J. Wesley Gardner's guests at the Martha Washington hotel, are three very talented young Greek sisters all musicians of a novel type. They are Anne, Heine and Irente Kourtlus of Manchester, N. H., and this is their first visit south.

All three are expert on string instruments which take in the violin, masd-lin and lyre, the oldest string instrument. The lyre has been known to the Greeks for enturies especially in Thessolonia from whence came their parents.

Why spend the extra dollars for a higher priced car? Chevy's smart as they come with its stylish Body by Fisher—and it's a beautiful thing to handle!

In truth, there's been a quiet revolution in the automotive world. Higher priced cars used to provide much more in space, ride, and handling. But no longer. Chevy, in plain fact, offers all the luxury, all the perform-ance, all the space and styling you've always hoped for—and better roadability, quicker response, more accurate control,

That's hard to believe—if you haven't driven a new Chevrolet. And if you haven't, you owe yourself a demonstration. We'll be happy to arrange it.

SURFACE CANCES
They were treating the man for skin cancer, failing to realise how deep it had penetrated. Each movement led to another: Gradually he was losing his life while they were trying to save it. Xray now points to the depth.
Man's troubles with his morals are not sufface things. We tend to advise him to stay away. That does not go to the root of his problem! Unless a new desire is born to be better, reform may not last. Religion if it does its work goes to the heart, works on the inside of man's life.

Our Lord brings peace to the heart if man has the consciousaness of forgiveness. The sin of a life is dealt with, new motives are given or right direction in living. But all that God is able to do list left to the individual to accept or refect. God does not conscript. He calls for volunteers. If God makes he really makes on the basis of man's suffender voluntarily to be made.

Make your house a sight safer with modern HOUSEPOWER

Well placed lights save lives! That's one big reason you need modern Housepower. It gives you plenty of circuits for lights wherever needed. On stairs, front steps, paths, in hallways, closets, basement. The places where darkness spells danger!

Beware of long lamp cords! Housepower gives you nearby elec-tric outlets for lamps and appliances where you want them. Your home is free from long extension cords that may over-load circuits, blow fuses, or trip you into a bad fall.

Don't talke a dim view of chores! With modern Housepower, you can have plenty of light wherever you work. That saves the cut fingers and hammered thumbs . . . the barked shins and bad burns that happen too often when you can't see what you're doing.

Live longer—live better—live electrically! Installing modern Housepower in a new or old single family home now costs less than ever. Ask your Electrical Contractor for a free estimate. Find out how easily you can make work lighter and home safer with up-to-date Housepower.

What is modern HOUSEPOWER

It's at least a

backed by a 3-wire it with the power line. Trying to "get by" with less may power-starve your present appliance and lights. And it denies you the joy of the many wonderful new electric servants you see these days at your Electric Appliance Dealer's.

the general floor plan of the house, location of the telephone, light, switches and where the baby's telephone stotle, est are kept.

Economists advise babysiters to know where the parents are and what they want to do if an emergency ever arises. If the baby is hurr, call the physician which the parents have designated for you; ten call the parents.

Some general do's and dont's are to keep the outside doors securely locked and not open them for strangers. The telephone line should be kept open for important calls since baby sitting is really a business transaction like any other job.

Babysitters will be more relaxed and develop a better sense of hum mor if they keep in mind the difficulties children have, and learn to adjust to the children's environment.

The marriage of Miss Marilyn Lynette Kirkpatrick, daughter of Mr. and Mrs. Obed C. Kirkpat-rick of Hodge, La., to Nillioue Loin Burrell, son of Mr. and Mrs. James H. Burrell, of Virginia Beach, Va. took place at the First Baptist Church, Jonesboro, La. Saturday, August 18th.

The Rev. J. E. Calloway offi-ciated at the service.

The Rev. J. E. Callaway officiated at the service.

The bride given in marriage by her father, was lovely in a gown of white lace over satin. The scolloped decollectage was traced with pearls and lace descents to complete each scollop. The bodiec came to a point both back and front and tiny buttons covered with satin and lace closed the back and sleeves that came to a point at the wrists. Her double tirred finger ity veil of illusion fell from a tierra of pearls and irridesents. She carried a white orchid with a yeliow throat surrounded by stephanotis and illiles-of-the yalley.

The bridesmaids and candle lighters wore orchid pink over rose pink and the maid-of-honar wore a true pink. They carried colonial bouquets of sweetheart roses shading from pink to rose. Kitty Kirkpatrick of Shreveport, La, was flower girl. Her gown was identical to the other attendents.

For Owners: 19 Minutes

The average manufacturing company spends most of the working day paying off the costs of doing buiness, and only about 19 minutes are left in which to earn profits, according to an editorial in the June issue of "SERVICE for Company Publica-

"In the normal eight-hour working day, 191/4 minutes are a pretty small part. It is close to quitting time before these few minutes, all that is left of the day are "minutes for profit in the average manufacturing company" says the magazine, published monthly by the National Association of Manufactures for industrial editors.

Do You Remember?

The rest of the profit minutes are used for reinvestment in the business."

Three hours and 55 minutes will be used to pay for materials and supplies, "SERVICE" estimates. Assuming the work, ing day begins at 8 a.m., that takes until 11:55. To meet wages and salaries will take two hours and 19 minutes. With one hour for lunch, the clock moves to 3:14.
"To pay all taxes, federal, state and local, uses up another 431/4 minutes," the magazine observes. "It is 3:57¹⁶. Repair and replacement of facilities will require 29 min-

placement of facilities will require 29 min-utes. For research and promotion, 141/2

Of Interest to Vets

Inquires are already coming in from the dependents of men in active service about the new medical care bill which was passed by the last Congress. The bill, part of a program to make military careers more attractive, enables the Department of Defense to guarantee a serviceman that his dependents will get medical care no matter where they are located. The bill provides for care at civilian hospitals where service hospitals are not available.

There is a great deal of detail

tals are not available. detail work to be done by the Department of Defense before the program can be put into operation, such as deciding on the type of insurance or service pian to be used for civilian care and setting up the facilities for handling the program. Uniform minimal charges to the serviceman will have to be established and the patient will probably be required to pay the first \$25 of hospital expense for each admission.

Never Too Old

This development of adult education classes has been called the "fourth level in the educational system." The other levels are the grade school, high school and college.

Many parents will be going to evening classes in the same schools their children

More American adults than youngsters may be going to school this fall. Encolliment in the nation's adult education classes is expected to reach 35 or 40 million. This compares with about 32 million students expected by the U. S. Department of Education to attend elementary or secondary public schools.

According to Dr. Paul Essert of the Adult Education Association, public affairs and parent education classes have had the most significant increase and have proved most popular?

According to Dr. Paul Essert of the Adult Education Association, public affairs and parent education classes have had the most significant increase and have proved most popular? have worked hard to give their children that opportunity so they are endeavoring to "improve themselves" through adult adultation

Despite lack of funds and shortage of teachers, adult education is rapidly becoming an accepted and desirable facet of community life.

Do You Remember?

The Old Timer found a advertisement in an old newspaper the VIRGINIA BEACH WEEKLY of January 1, 1929. I sure think this is worth reprinting.

It is time for home time loyalty to be dis-played as it has never before been display-ad. It is time for closer fellowship right here at home, and a closer bond of Civic Fellow-ship and neighborly understanding.

We the citizens of Princess Anne County whose names are atlached, pledge ourselves to the promotion of everything that will go toward the up building of this community, and the happiness of its citizens during 1926. We pledge our loyalty to this

town in all things that will make it a bet-ter town in which to live. We will spend our money here where we make it. We will give our own citizens and the citizens of the ommunity around us First considertion in business, social, educational and civic aff-

the fine city and county government and all working together, we could make Virginia Beach and Princess Anne County the finest place in the world to live. So lets all get behind our government and make our community, a finer one.

The names, I must leave off because there were so many. But the Old Timer thinks this should be our creed. And with

still more evening courses if a sufficient number of students request it.

Dr. Antheet L. Samestta, coordinator of the Evening College, said that if as many as fifteen prospective students request a certain course, "we will make every effort to previde it for them."

"That's why we're here," explained Dr. Samestta, "to stray the needs in adult education for residents of the Tidewster communities and area military personnel. And if we don't already offer what they're seeking, then we'll do everything possible to start whatever courses they request."

Already, the William and Mary Evening College is offering 35 courses in more than 20 different subjects, sanging from 18th Century history to the 20th Century atomic theory. Fourteen of the courses have just been added to the curriculum.

The new courses are in English, home economics, mathematics, philosophy, physical education, sociology, fine arts, modern physics, Italian and education.

More specifically, Dr. Sancetta outlined two new English courses, one on "Writing the Short Story", and the second on Contemporary Verse; two home courses, cone on the use of textiles in the demestic, industrial and commercial world, and another on "consumer education", one new mathematics course, Callenius; and one new philosophy course, "Introduction to Logic."

In all probability English II and History II along with a course in Mathematics and Science will be offered in 1937 - 58.

The program presents a fine opportunity for these students not going away to college. It is not a program in which there is competition with other colleges, but is offered as a service to the boy and gril who did not go away to college.

The cost of the course in Guidance and in English, and History is \$8.00 per semester hour's credit; however, in the case of the course in Freshman English and History there may be a small registration fee.

All high school graduates in this area owe it to themselves to come out Thursday September 27th at 8 P.M.

"DRIVING THROUGH THE YEARS" The story of the Motor Car THE COMFORTABLE RIDE - YESTERDAY AND TODAY

comfortable riding from the beginning: first there were poor roads, and the typical carriage frame giving no comfort at all.

As engines and car bodies developed, riding comfort was sought. Solid rims were replaced by solid rubbertines, then with pneumatic tires.

With better roads better troads
better times, and
better springs (but still
carriage-type springs) riding
got smoother...

It wasn't until the late

twenties with hard surfaced roads, the new balloon type tire, better fiame construction, that care started on their way to real comfort ...

--reached finally in the 'million dollar ride' as exemplified in BUICK'S

coil-spring, x-frame ride.

Whatever happened to that \$39,000?

This man has averaged \$75 per week in salary over the past 10 years — and hasn't a single penny to show for it.

Sure, the cost of living has been high; but if our friend had banked as little as \$2 out of each week's paycheck, he'd have more than \$1,000 saved today.

· HAPPINESS

The world determines happiness on many times by who are in re-lation to the world, but the scrip-tures teach us it is who are in re-lation to God. Happiness does not lation to God. Happiness does not so much depend upon what we have or upon who we are but upon what we are. If we look for it only on the outside we may miss. If it ever comes in reality it must come from within. It does not depend upon the kind of house we live in as much as it does the kind of man. I winz in the house. It is not necessarily affected by the

of man living in the house. It is not necessarily affected by the kind of garment we wear but the kind of florividual who is dressed in the garment. For our Lord it was more a mat-ter of inward harmony than out-ward circumstance. For this to be reached the seat of sovereignty had to be settled. Man is in a quandary when his locally is divided. When to be settled. Man is in a quandary when his loyalty is divided. When the Kingdom of God is placed in the right position it determines perspective for the rest of life.

Things take shape around the center. If the Kingdom of God is the pivital point all other things will line up accordingly.

Notes From Your County Agent

BY E. R. "DICK COCKRELL, JR.

"OLD" Wheat Grewers:

Any producer who has a regular wheat acreage allotment may take part in the Soil Bank's Acreage Reserve program for the 1867 winter wheat crop. W. F. Hunger chairman of the County Agricultusal Stabilization and Conservation Committee, said today. Producers on farms which receive an allotment as a "new farm" for the 1857 wheat crop, however, are not lightle for participation in the 1957 Acreage Reserve Program.

Payments under the program will be made for reducing the acreage of winter wheat below the farm allotment. The farm operator in a written agreement specifies part of the allotment acreage as acreage to be "reserved" from production. Land so

Tidings

Out Roanoke way they're telling about the little boy who came rushing home one evening bursting with news. "I just sold my dog for \$10,000!" he cried. "Ten thousand dollars!" exclaimed his father. "Where's the money?" The lad smiled happily. "No money," he said. "I traded him for two \$5,000 cats."

Here's something a friend of the telephone company sent in. You might enjoy it, too!

"I am a telephone booth. Within these walls of glass and metal, I hear the history of our town. Here are the voices of gladness and joy, the murmurs of sympathy and sadness. Here are heard those brief sentences

that shape a lifetime: 'I love you.' It's a boy!' She's going to live.' ... Here are found moments of bliss and blues, happiness and hate, delight and despair. What plans have been made, what secrets shared within this little room! But my job is neither to judge nor reflect . . . it is simply to provide a place where all may send those messages which make the telephone so much a part of life."

Do you still walk to talk? The whole idea behind modern Do you still walk to talk? The whole idea behind modern telephone service is to have telephones where you are, instead of running to where the telephone is. For an extension telephone in your bedroom, kitchen or recreation room, just call The Chesapeake & Potomac Telephone Company of Virginia. Your Service Representative will tell you: cost is small, convenience is great.

"Diplomacy," a man from Washington was overheard to say at a Virginia house party, "is the art of letting some have your way.

P-s-s-t! Is your telephone receiver "off the hook"? If it is, you may be missing an important message—and if you're on a party line no one else can make or receive a call. When you always hang up carefully, you (and everybody else) get better telephone service.

Be careul not to put too heavy Be careul not to put too heavy a load of clothes in your dryer. Overloading increases the drying time, prevents uniform drying, and causes clothes to wrinkle, making froning more difficult. Through a dryer, like a washer, may take 3 or 9 pounds (dry weight) of clothes, research shows that a lighter load of about 6 pounds washes better and dries faster.

SMALL APPLIANCE STUDY:
Small household electrical appliances received a high rating for durability recently. A survey of 12 familiar items—ranging from hand irons, toasters and waffle irons to blenders, mixers deep-fat fryers and coffee-makers—was made in 66 households in two small cities to learn which small appliances families owned, how long they had owned them, how frequently they were used, and whether and how they had been serviced or repaired.
The study findings showed that

But Don't Relax

A law passed in the closing days of the last Congress and signed by the President makes it unlawful for any person to place inter-state commerce any household refrigerator manufactured on or after the law becomes effective unless it is equipped with a special closing device. Such devices will enable the door to be opened from the inside and must also conform with the stanide and must also conform with the standards to be prescribed by the Secretary of Commerce. The purpose of this law is to put an end to the continually mounting death toll of small children - 115 in the past ten years that have been trapped and suffocated in these boxes while playing.

The effective date of this law is approximately 14 months off. However, it is hoped mately 14 months off. However, it is hoped that industry will not require that muchtime. Some manufactures have long been concerned with the problem. General Electric, for instance, began its research several years ago on a closing device that would help make a refrigerator child-safe and announced seven months before Congress passed the law that all of its new refrigerators would be equipped with the new Magnetic Safety Door. There are no latches or mechanical closing devices whatever, Doors are held shut by permanent bar magnets and can be pushed open from the inside.

In order to speed the safety program the company has offered to license other manufactures to use the magnetic door idea.

But even if every refrigerator manufacbut even if every refrigerator manutac-tured today were eqquipped with this safety feature, the problem will remain with us for another ten years or more-since it will be approximately that long before the new safety boxes begin to re-place the present death-traps among the discards in junk heaps and vacant lots, backyards and basements.

Thus, the peril of the abandoned refri-Inus, the peril of the abandoned refri-geator remains, for the time being, what it has been. In spite of widespread publicity, in spite of laws being considered in many states require the removal of doors and latches before these boxes are thrown out. adventurous youngsters continue to lose their lives in suffocating darkness.

All credit is due to the manufacturers who have sought in advance of legal requirements to eliminate this horror. And may their example dramatize the danger in the cast-off. But, unless we do a better job of dismantling old boxes before they are discarded, the next ten years could roll up a more shameful record than the past de-

the stage of the outdoor theatre located just off Jainesrown Rose den of Virginia Beach for the past (State Route 31) in Williamsburg.

"The Founders" will be presented as a special feature of the ramestown Pastwal and will open May 13 for an indefinite season.
Written by the author of "The common Glory," the drama traces the slow and painful testablishment of the 1607 colony on Jamesthe Movem Island.

According to Allen R. Matthews, According to Allen R. Matthews, executive vice president of the Jameslown Corporation, producer of the new historical productor, no corre de ballet or choir as such will be employed in "The Foundamens,, but anging and dancing ability will be an important consideration in the selection of actors. He said that the singing and dancing called for by the script will be built around actual characters, and "therefore singers and dancers with acting ability will be doubly welcome at the audition." after it comes," said Captain R. B. King, State Police Safety Officer and Assistant Administrator of the Governor's Highway Safety Committee, today in announcing the opening of the Fall Inspection period October 1.

Passenger aut.mobiles will be inspected from October 1 through November 15 and trucks during the entire month of December. Trucks include all vehicles with "Truck" or "Convert.ble" license plates. Captain King pointed out that, while all highway dangers cannot always be foreseen, a mechanically safe vehicle is one precaution that can be taken by everyone.

"Our Message, as usual," he said, it is a plea that motoriats present their cars for inspection early and not wait until the inevitable last-minute jam. A new inner car gives you a NEW KIND of FORD for 1957! Coming October 3rd.

On Wednesday, October 3rd, Ford Dealers throughout the United States will unveil a new kind of automobile!

This makes possible a new high standard of such honest-to-goodness value that it actually increases the purchasing power of your automobile dollar.

m you see it, other cars will look out of date, because . . :-This is Where Tomorrow Starts . . . with a Big New Kind of Ford!

The New Kind of Ford is the fullest, most eloquent expression of Ford's special personality—the youthful grace, the whiplash saction—and the reputation for durability known wherever there's a road.

The all this we have added true elegance—a kind of elegance never before seen in the low-price field. To make a car druly elevant, you must start deep-down inside, easy movement.

riors and elaborate trim. The Custom Series also includes a Business Sedan.

Beyond all these, you also have your choice of five Station Wagons—the famous glamour cruisers that are the champions in this field!

That low, low cradle-span frame means a low, low car. The Fairlane 500 is only four feet eight-linches from road to roof! The Custom is just over four feet nine inches!

Custom is just over four feet nine inches!

The new Ford is not only low-but long. Ford gives you more than 17 feet of elegant length in the Fairlane Series, a shade less in the Custom. It's a nice kind of fun just to look a it. It's high-priced in every way except price.

The New Ford Performance

You can have up to 245 wonderful Thun-derbird horsepower in any Ford model. There's a moderate—and really moderate—extra charge for this engine of 512 cubic inches with its 4-barrel carburetor.

For "Six" lovers, we've got the 144-hp Mileage Maker Six. Whether you choose Six or V-8, the going is great!

The right light for spaciousness. Today, lighting engineers know how to "push back" your walls! Many of the new lighting fixtures take up no room space at all. They're set right into the ceiling or walls—leaving the whole room clear—bigger feeling—with no dim or hidden spots.

Bright islands of sociability. You may have a very large room
... or a modern home divided into areas rather than rooms. Here
light does another useful trick. It keeps family and guests from
scattering—draws them naturally into sociable groups.

Highlight the best in your home. It may be a fine mantel, a favorite picture, clock or piece of furniture. Modern lighting can accent it ever so subtly to give a room new interect.

Housepower opens the way to modern lighting. It lets you have plenty of circuits for well placed fixtures and lamp outlets. And now Housepower costs less than ever to install in single family homes. FRIENDLY A **TABERNACLES** The author of the 84th Paalm was a great lover of the earthly habitations of God. The temples, ahrines and holy places of Israel were his chief delight. He found them friendly, inviting and comforting to his soul.

In one of his moments of spiritual ecstasy he broke forth in song: "How amiable are thy tabernacles. O Lord of hosts!" he sang. "My soul longeth, even fainteth for the courts of the Lord."

There are millions today who look upon God's earthly houses—the churches of the land—in much the same way. They are God's earthly houses—the churches of the land—In much the same way. They are glad when the church hour comes and they can mingle with others in worship and spiritual fellowship.

The church around the corner or over in the next block is not a cold and formal place, once you come to know it. It comforts and impires and points the way to a kind and loving God.

Come to Church on Sunday and enjoy the fellowship of God's people.

FORT STORY TELLINGS

SUPERDUCK CONFAB

A high level Army conference of military and industrial experts con-cerned with the new Superduck ended at Fort Story September

Led by Lieutenant Colonel Mur-ay E. Manley of the Detroit Ar-thel, the talks concerned results Superduck tests conducted here

"We're here to discuss immedi-ate medifications necessary to get-Superduck in production and we're here to consider potential areas of investigation to build an even bet-ter future amphibian," he expla-

ter future ampinian," he explaired.

Superduck is a new model of the
versatile DUKW amphibious truck
of World War II fame. The DUKW
was bullt simply from a basic 2½ton truck by adding a boat-type
huil and marine serew. Superduck, which is alightly larger, was
developed from the beginning to
be a land and sea vehicle.

Discussed in the talks were such
matters as Superduck's ability to
carry artillery. This was investigated in the first phase of testing
August 13 when a battery of airbonne field-artillery from Fort

borne field artillery from Fort Bragz spent a week at Fort Story assisting the amphobious experts

A new inner car gives you a NEW KIND of FORD for 1957! Coming October 3rd.

the United States will unveil a new kind of automobile!

Cars are involved in every American's life, News of a new kind of car is the biggest kind of news to millions of Americans.

The Big New Kind of Ford is that kind of news . . . a car totally new in design from crest to trunk lock.

This completely new automotive package will sell at the traditionally low Ford prices. This makes possible a new high standard of such honest-to-goodness value that it actually increases the purchasing power of your automobile dollar.

When you see it, other cars will look out of date, because . This is Where Tomorrow Starts . . . with a Big New Kind of Ford!

The New Kind of Ford is the fullest, most

eloquent expression of Ford's special per-sonality—the youthful grace, the whiplash action—and the reputation for durability known wherever there's a road. To all this we have added true elegance

a kind of elegance never before seen in
the low-price field. To make a car truly
elegant, you must start deep-down inside.

The Inner Ford—the car you cannot see— is a very remarkable structure. Its frame is actually a cradle, Side members extend almost the full body width; they serve not only as supporting members but as con-cealed side bumpers of immense strength.

The New Ford Body

The new Ford body is a triumph of engineering in steel. The doors close with the solid finality of a bank vault. Even the door-look button has been moved up front—easier for you to reach, but out of the children's reach.

All these features were engineered to give you a solid new kind of comfort.

The New Ford Ride

The New Rind of Ford sits six people as no other low-priced ear has ever sat them

- six elbows wide in each seat, with deep space around each one of six knees. And above all that space, there's hat room to spare for all six passengers.

The 1957 Ford rides low, solid, with a firm, deep road holding feet. Yet it's a light-hearted, flight-hearted ride—this car is responsive, nimble, agile, with a proud

The New Ford Choice

Ford offers not only one, but two sizes of cars ... each on its own extended wheelbase ... each with its own body shell ... each with its own styling.

First, the two Fairlane Series on a 118, inch wheelbase. The Fairlane 500's come in 5 body types, a four-door sedan, a two-door sedan, a two-and four-door Victoria with no cepter pillars, and a convertible coupe. The same body types (except for the convertible) are available in the Fair-

Second, two Custom Series mounted on the 116-inch wheelbase chassis. In the Custom 300 Series, a four-door and a two-door sedan are distinguished from the Custom models by more luxurious inte-

riors and elaborate trim. The Custom Series also includes a Business Sedan.

Beyond all these, you also have your choice of five Station Wagons—the famous glamour cruisers that are the champions in this field!

The New Ford Look

That low, low cradie-span frame means a low, low car. The Fairlane 500 is only four feet eight inches from road to rooff The Custom is just over four feet nine inchest

Castom is just over four teet mine inches!

The new Ford is not only low—but long.

Ford gives you more than, 17 feet of elegant length in the Fairlane Series, a shade
less in the Custom. It's a nice kind of fun
just to look at it. It's high-priced in eyery
way except price.

The New Ford Performe

You can have up to 245 wonderful Thun-derbird horsepower in any Ford, model. There's a moderate—and really moderate— extra charge for this engine of 342 cubic inches with its 4-barrel carburetor.

For "Six" lovers, we've got the 144-hp Mileage Maker Six. Whether you choose Six or V-8, the going is great!

It starts at your Ford Dealer's showed The cars will be there on Wednesday, October 3,
